***Reasons for allowance***

1. This communication is in response to applicant's amendment filed on 09/03/2008 in the application of Bugenhagen et al. for a "Congestion handling in a packet communication system" filed 01/26/2004. This application is a Request for Continued Examination (RCE) under 37 C.F.R. 1.114 filed on March 31, 2008. The proposed amendments has been entered and made of record. Claims 6, 20 have been canceled per Applicant's request and claims 1, 15 have been amended. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.

2 Claims 1-5, 7-19, 21-28 are allowable as evident by applicant's amendment (Claims are renumbered as 1-26 respectively).

3. The following is an examiner's statement of reasons for allowance: The closest prior art of record fails to disclose or suggest a packet communication system, comprising: a packet network; an end communication device coupled to the packet network and configured to transmit a call request message for a call over the packet network, the call request message having a header that includes priority information for the call; and a call processing system coupled to the packet network and configured to receive the call request message, process the priority information in the header of the call request message to determine if the call request message is for a high priority call, and transmit a response message over the packet network indicating a state of congestion in the call processing system responsive to a determination that the call

request message is not for a high priority call; the end communication device is configured to receive the response message and perform call blocking on calls to be handled by the call processing system responsive to the response message; wherein the call processing system is configured to transmit a message indicating that the call processing system is no longer in the state of congestion; and the end communication device is configured to stop performing call blocking responsive to the message indicating that the call processing system is no longer in the state of congestion, as specifically recited in claim.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Man U. Phan whose telephone number is (571) 272-3149. The examiner can normally be reached Monday through Friday from 6:00 am to 3:00 pm.
